

# Zero Emissions Municipal Buildings and Operations Policy

City of San Diego implemented a Zero Emissions Municipal Buildings and Operations Policy and performed electrification planning to help meet the city's climate action plan targets.

- ▶ Established a goal of zero emissions municipal buildings by 2035
- ▶ Targets include removing natural gas from 50% of municipal facilities by 2030 and all municipal facilities by 2035
- ▶ Plans to transition municipal fleet vehicles to zero emissions vehicles by 2035
