

## EMIS RFP Examples from Smart Energy Analytics Campaign Participants

Disclaimer: Please note that the information in the samples here are not an endorsement of a vendor's product from DOE, LBNL, or the Smart Energy Analytics Campaign

Reference #	Sharable version	Summary Description
1	<a href="#">EIS-FDD-MBCx RFP</a>	<p><b>The RFP includes a comprehensive description of EIS and FDD software requirements and includes MBCx consulting services:</b> The RFP provides details on energy analytics required of the EIS. Broader description included for FDD requirements. Includes necessary metering and communications hardware, system training, and ongoing maintenance and support.</p> <p>Also includes guaranteed savings section (a separate section)</p> <p>Healthcare setting, but is transferrable across market sectors</p>
2	<a href="#">EIS RFP</a>	<p><b>The RFP is written for a redesign of existing EIS and includes desired EIS functionality</b></p> <p>Alternate scope: FDD Section</p> <p>Alternate scope: system that can consolidate control system interface irrespective of vendor, into a single, dependable enterprise application and user interface. The intent is not to replace current systems, but rather provide a singular graphical user interface that can monitor, alarm, and control these various systems.</p>
2a	<a href="#">Addendum to EIS RFP – Q&amp;A</a>	<p><b>Addendum to EIS RFP above (in row 2).</b> Interesting to see what the vendor Q&amp;A included, and potentially cover those aspects in the RFP.</p>
3	<a href="#">MBCx Service with FDD RFP</a>	<p><b>Condensed Scope of Work, includes EIS and FDD.</b> Includes detail on FDD requirements.</p>
4	<a href="#">RFP – Energy Information Systems - Hardware</a>	<p><b>Metering Hardware RFP:</b> energy monitoring hardware for the purposes of tracking utility use within three existing buildings. These hardware components will allow for real-time tracking of utility use and large equipment monitoring. Includes whole buildings and submetered electric natural gas meters.</p>
5	<a href="#">EIS and FDD Scope of Work</a>	<p><b>EIS and FDD RFP</b> – Includes site-specific metering information for existing and additional points. K-12 school setting.</p>

6	<a href="#">FDD RFP Comprehensive</a>	<p><b>The RFP includes a comprehensive description of FDD requirements and details on fault management and integration with exiting work order management systems.</b></p> <p>The most detailed example RFP for FDD.</p>
6a	<a href="#">FDD RFP Comprehensive – Interview Instructions Addendum</a>	<p>For the RFP above (in row 6), <b>Interview Instructions for Vendors</b> – comprehensive set of interview questions.</p>
7	<a href="#">EIS Evaluation Checklist</a>	<p><b>EIS Evaluation Checklist:</b> May be used to help evaluate RFPs or through less formal vendor assessment process. Includes data types, process for data entry, normalizing, reporting, and more.</p>
8	<a href="#">EIS Vendor Comparison Matrix</a>	<p><b>EIS Vendor Comparison Workbook:</b> Blank template for making a comparison between two EIS vendors. Includes qualitative assessment, prices, systems/buildings included, and staff expense to compare different packages.</p>
9	<a href="#">EMIS Vendor Comparison Matrix</a>	<p><b>EMIS Vendor Comparison Matrix:</b> Template for making comparison between multiple EMIS vendors. Includes feature details and descriptions in categories such as data collection, data visualization, energy analytics, financial analysis, and demand response.</p>
