Join us for our fourth season of state networking and discussion! This year we will be revisiting the important issue of Leading By Example (LBE). All of you have key efforts happening in your state portfolios and assets that serve your goals in energy efficiency and cost savings. Three years ago we opened this book as a group and this year we will convene to hear the most recent chapter. You told us you wanted more time to share your LBE successes and challenges with each other – we heard you. Come share your LBE stories and hear other states’ experience on this day and come shape the ideas for the relaunch of the LBE Interstate Network! We want you to help write the next LBE chapter!
