

Sustainability at Johnson Controls

The new Johnson Controls

We combine technology with insights to build purposeful solutions that help the world progress, meeting today's needs and shaping better tomorrows.

VISION A safe, comfortable and sustainable world.

MISSION Helping our customers win everywhere, every day.

Business overview

Buildings

Leading provider of building technology, products and solutions—controls, equipment and services for HVAC, security, fire and refrigeration.

Power Solutions

Global leader and largest manufacturer of automotive batteries, powering nearly every type of vehicle.

More about the new Johnson Controls

Our new corporate values

Integrity First

We promise honesty and transparency. We uphold the highest standards of integrity and honor the commitments we make.

Purpose Led

We believe in doing well by doing good and hold ourselves accountable to make the world a better place through the solutions we provide, our engagement in society, the way we do business, and our commitment to protect people and the environment.

Customer Driven

We win when our customers win. Our long-term strategic relationships provide unique insights and the ability to deliver exceptional customer experiences and solutions.

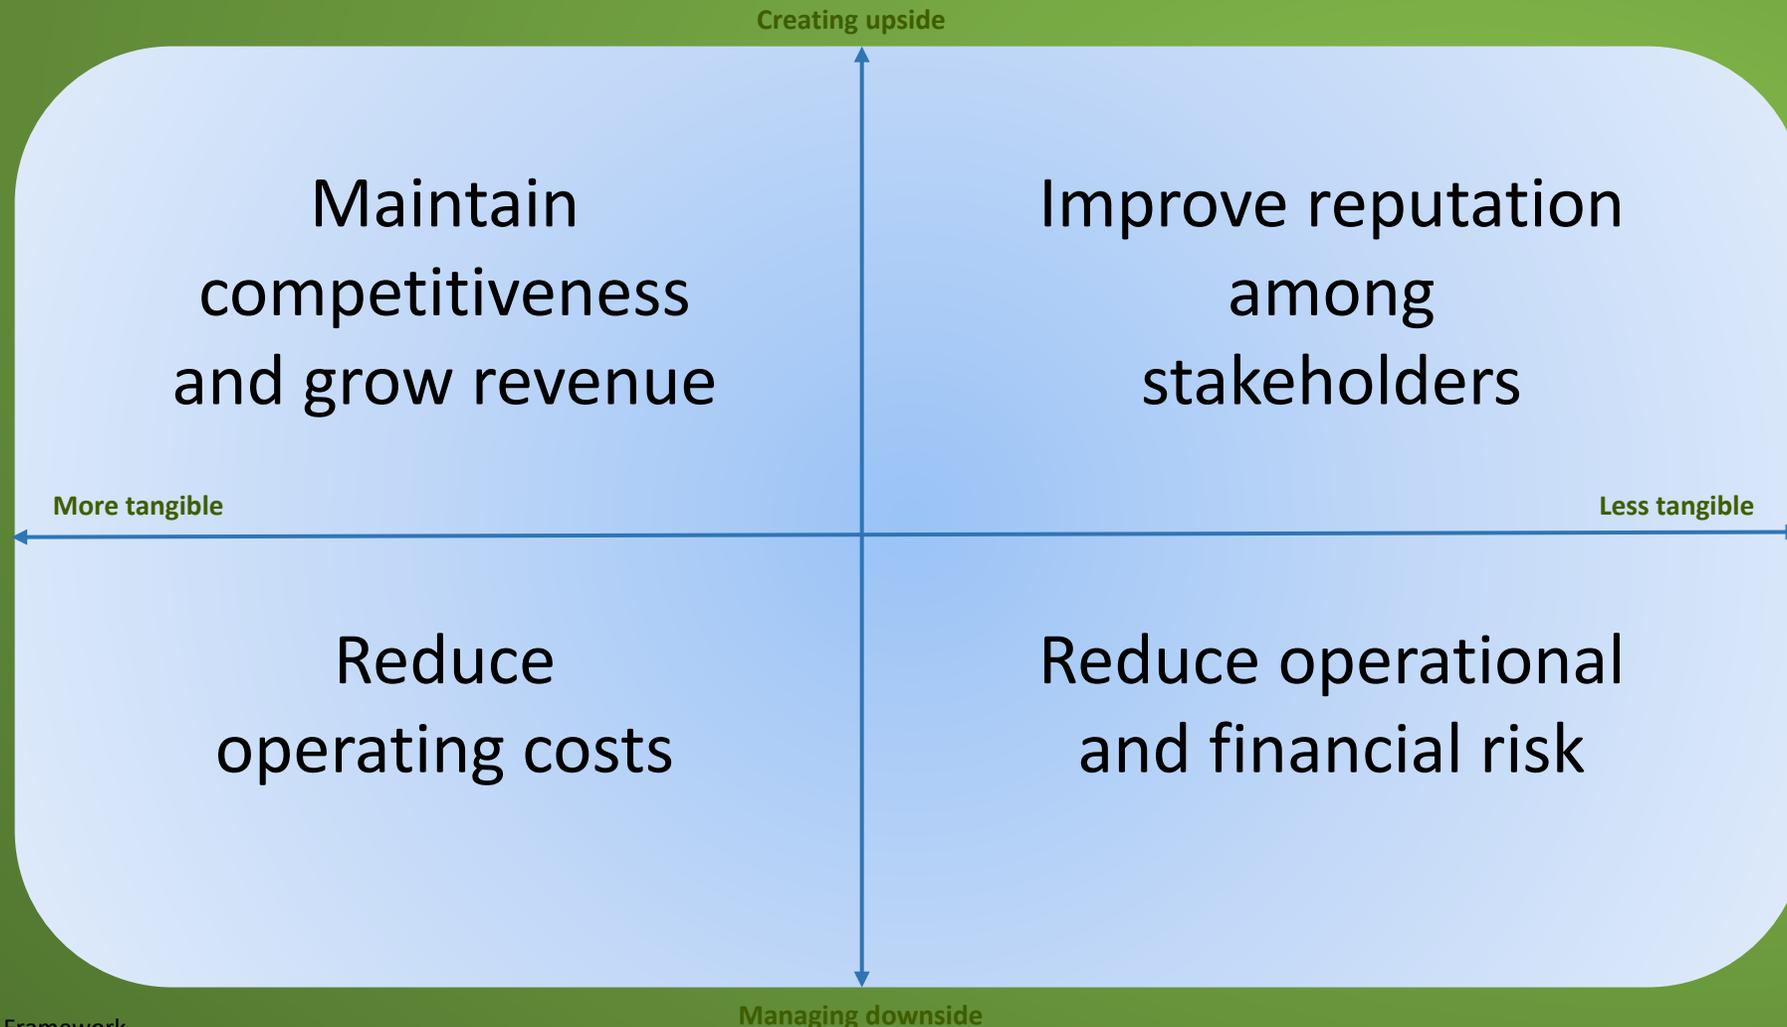

Future Focused

Our culture of innovation and continuous improvement drives us to solve today's challenges while constantly asking 'what's next'.

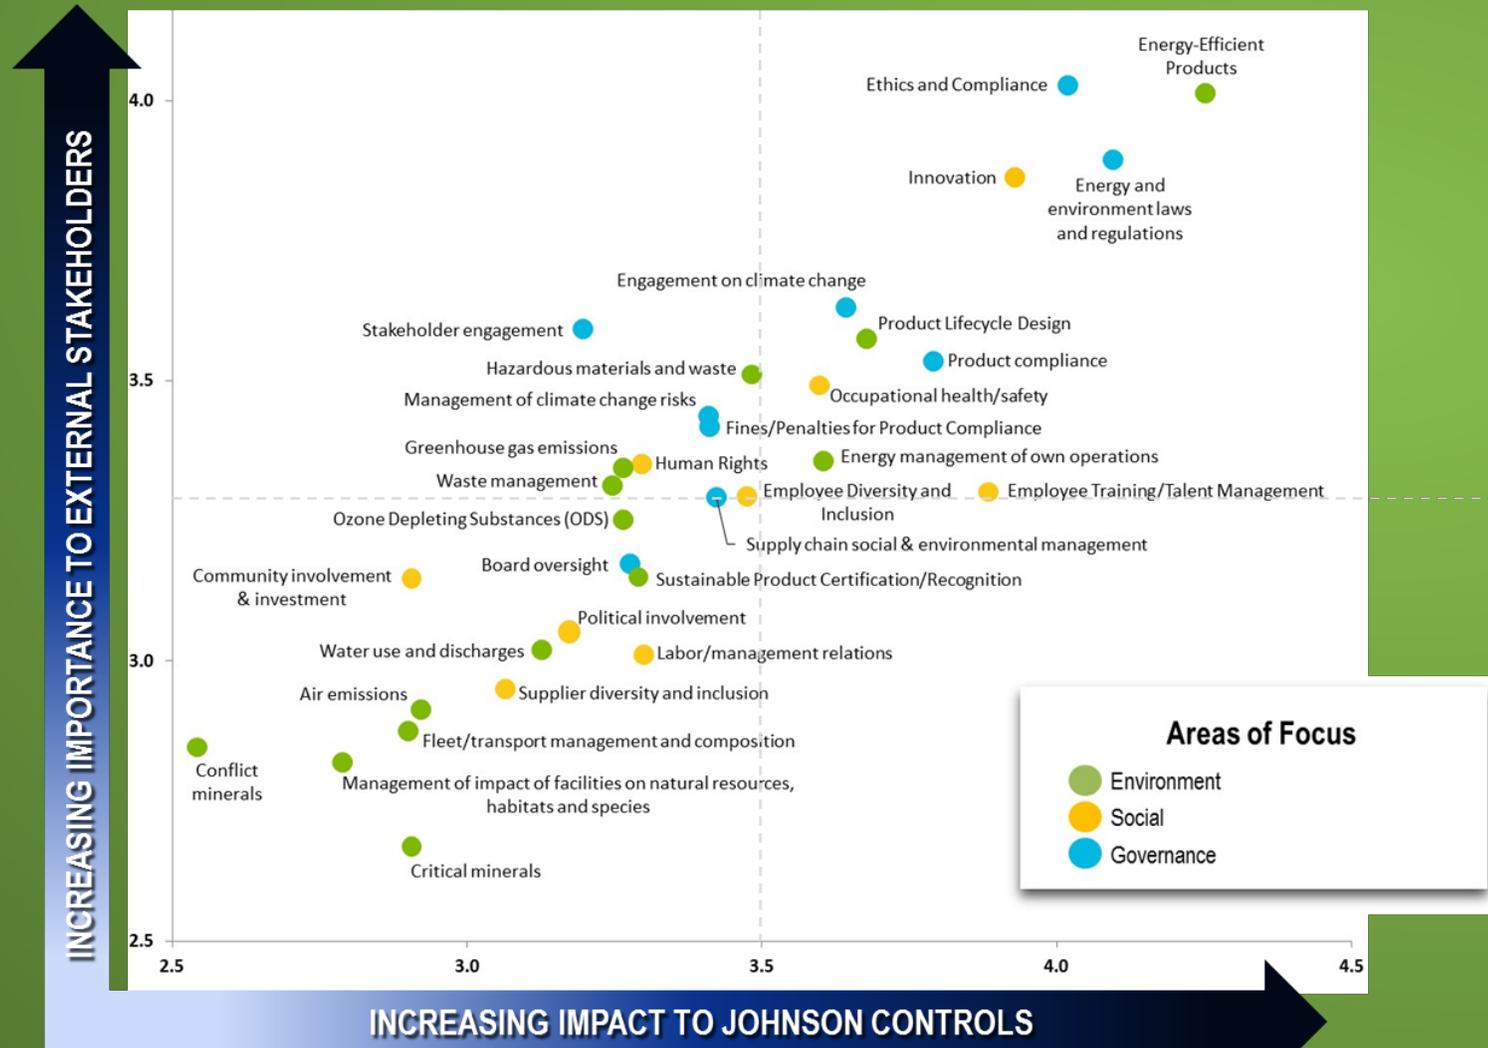

One Team

We are one team, dedicated to working collaboratively together to create the purposeful solutions that propel the world forward.

Sustainability is good for our stakeholders and good for business

Our internal and external stakeholders help us prioritize our top sustainability issues

Johnson Controls has a strong track record of environmental sustainability success

Our approach is to enhance sustainability across our whole value chain

Engaging our supply chain

- Johnson Controls Supplier Efficiency Program
- Carbon Disclosure Project (CDP)
- Johnson Controls Supplier Leadership Awards
- Johnson Controls Sustainability Rating Survey

Enhancing sustainability of our operations

- Energy Hunt Program
- Reduce greenhouse gas intensity by 15% by 2020
- Reduce energy intensity by 15% by 2020
- Reduce water intensity by 5% by 2020
- Increase waste diversion away from landfill to 90%

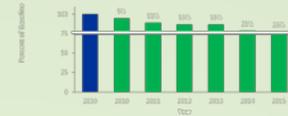

Delivering customers sustainable products

- YORK® YMC² chiller is 10% more energy efficient than conventional chillers
- Start-Stop battery technology save approximately 5% of fuel vs. traditional batteries
- Our vision is a world where 100% of vehicle batteries are recycled
