The U.S. Department of Energy's Home Energy Score assesses the energy efficiency of a home based on its structure and heating, cooling, and hot water systems. For more information visit HomeEnergyScore.gov.
The Home Energy Score's Home Facts includes details about the home's current structure, systems, and estimated energy use. For more information about how the score is calculated, visit our website at HomeEnergyScore.gov.

### About This Home

**ASSESSMENT**
- **Type**: Official
- **Assessor ID**: #1234567
- **Scoring tool version**: v2016

**HOME CONSTRUCTION**
- **Year built**: 1970
- **Number of bedrooms**: 3
- **Stories above ground level**: 1
- **Interior floor-to-ceiling height**: 10
- **Conditioned floor area**: 1,500 ft²
- **Direction faced by front of house**: North
- **Air sealed?**: No
- **Air leakage rate**: 6,500 CFM50

### Estimated Annual Energy Use

**ENERGY BY TYPE**
- **Total**: 204 MBtus
  - **Electricity**: 141 MBtus
  - **Natural gas**: 11,956 kWh
  - **Propane**: 519 therms
  - **Fuel oil**: 226 gallons

**COST BASIS**
- **Electricity**: $0.091 / kWh
- **Natural gas**: $1.153 / therms
- **Propane**: $2.171 / gallon
- **Fuel oil**: $1.45 / ft²

**DEFINITIONS & CONVERSIONS**
- **MBtu**: Million British thermal units; generic energy unit
- **kWh**: Kilowatt-hour; electricity unit
- **Therm**: 100,000 Btu; heat energy unit
- **Electricity conversion**: 1 MBtu = 293 kWh
- **Heat conversion**: 1 MBtu = 10 therms
Roof / Attic

**ROOF / ATTIC 1**
- Attic floor area: 500 ft²
- Roof construction: Roof with Radiant Barrier / Composition Shingles or Metal / R-0
- Roof color: Medium dark
- Attic: ceiling type: Unconditioned attic
- Attic floor insulation: R-25

**ROOF / ATTIC 2**
- Attic floor area: 1,000 ft²
- Roof construction: Standard Roof / Composition Shingles or Metal / R-0
- Roof color: Medium dark
- Attic: ceiling type: Unconditioned attic
- Attic floor insulation: R-9

Foundation

**FOUNDATION / FLOOR 1**
- Floor area: 500 ft²
- Foundation type: Slab-on-grade foundation
- Foundation walls insulation: R-0

**FOUNDATION / FLOOR 2**
- Floor area: 1,000 ft²
- Foundation type: Unconditioned basement
- Foundation walls insulation: R-0

Walls

**WALL CONSTRUCTION**

Recommendations

The Home Energy Score’s Recommendations show how to improve the energy efficiency of the home to achieve a higher score and save money. When making energy related upgrades, homeowners should consult with a certified energy professional or other technically qualified contractor to ensure proper sizing, installation, safety, and adherence to code. Learn more at HomeEnergyScore.gov.

REPAIR NOW. These improvements will save you money, conserve energy, and improve your comfort.

- **Air Tightness:** Have a professional seal all the gaps and cracks that leak air to save $110 / year
- **Ducts 1:** Add insulation around ducts in unconditioned spaces to at least R-6 to save $43 / year
- **Attic 2:** Increase attic floor insulation to at least R-19 to save $57 / year
- **Ducts 2:** Add insulation around ducts in unconditioned spaces to at least R-6 to save $23 / year
- **Ducts 2:** Have a professional seal all the gaps and cracks that leak air to save $74 / year

REPLACE LATER. These improvements will help you save energy when it’s time to replace or upgrade.

- **Windows:** Choose those with an ENERGY STAR label to save $61 / year
- **Water Heater:** Choose one with an ENERGY STAR label to save $159 / year
- **Electric Heat Pump:** Choose one with an ENERGY STAR label to save $32 / year

Comments

Current local incentives may make this house a good candidate for a new water heater.
