

**Thinking
about selling
your home?**

Let its inner beauty shine with Home Energy Score.

The Home Energy Score lets sellers showcase what lies beneath your home's aesthetics: those smart investments you made to improve comfort and save on monthly energy costs. A Home Energy Score speaks louder and more clearly than simply a listing of upgrades and just like an MPG on the car window, buyers appreciate the government seal attesting to a home's efficiency. Find out more at homeenergyscore.gov.
